

4-pole FIA Emergency Switch G50+

This emergency switch exceeds the standards in aviation by many times: functional up to 50 g, lightweight and extremely resilient due to a waterproof switch housing.

SOBEK part number: Z-I 2005 0053

FORM

- Weight: 102 g
- Material
 - Housing: aluminium EN-AW 7075
 - Switch housing: stainless steel

FIT

- Application area: interruption of ignition, activation of fire extinguisher
- Resistant to fuel, oil, hydraulic fluid, alcohol, sand, dust, solvent, extinguishant
- Installation: Position variable

FUNCTION

- Switch IP 67 IEC 60529
- Shock 50g
- Ambient temperature: -40°C bis +85°C
- Durability: minimum 2 mio cycles of operation
