

Classic SOBEK Impeller, brushed

The classic SOBEK Impeller, developed in 1985, is well experienced in the race car business for decades. The first piece has been manufactured for the Le Mans cars to breeze cool air into the cockpits.

Through constant research and development, the SOBEK Impeller comes up with a long lifetime without vibrations.

78 mm:

Z-I 4000 4314 Standard (CFK): 12 V / 8 A / 319 cbm/h

90 mm:

Z-I 4080 4311 Standard (CFK) 12 V / 8 A / 405 cbm/h

FORM

- Weight: 78 mm: 310 g / 90 mm: 351 g
- Body length: 120 mm
- Housing material: Carbon fiber (CFK) / Glass fiber optional

FIT

- Application:
Brake cooling, electrics, driver cooling, critical system components
