

**Delta Max Tape by Teknofibra**  
**-Self-adhesive thermal reflective material**

**Article no.: N-X 0001 4575**

Properties	
Material	Adhesive tape with aluminum layer
Temperature resistance Aluminum side	600 °C
Temperature Glue	200 °C
Thermal resistance (at 310 °C - tk 1.7 mm)	$R=0.046 \text{ m}^2 \text{ K/W}$
Thermal conductivity (at 310 °C)	$\lambda =0.037 \text{ W/mK}$
Dimensions	50 x 5000 mm roll
Weight	11.5 g/m

- Very light material
- Not combustible
- Does not develop harmful emissions or toxins
- Used adhesive is self-extinguishing and does not crystallize
